Packaging and transport specification

Référence : PRD-PACK-ENG

Version : 1.2

Date d'application : 2026-08-24

Département : Produits

Classification : Internal

Statut : En vigueur

Langue : EN

1. Purpose

This document supports Nattu engineering and service teams for international deployments.

2. Key requirement

Shock-sensitive products must use the molded insert and humidity indicator card.

3. Operational guidance

Follow the approved configuration baseline and record any field deviation in the service ticket.

4. Traceability

Keep serial number, firmware revision and intervention date with the service record.
